

# Chryso® Optima 100

Water reducing Plasticizing admixture

## DESCRIPTION

**CHRYSO® Optima 100** is a plasticiser – water reducer which works as a new generation superplasticiser based on modified phosphonate. Its specifically designed molecular structure gives it exceptional properties as a concrete additive.

Using **CHRYSO® Optima 100** results extensive workability at all levels of consistency, compared to standard additives. In this respect, **CHRYSO® Optima 100** is particularly adapted to the pumping of concrete over long distances.

**CHRYSO® Optima 100** is compatible with most types of cement / admixture incompatibility. On account of all these characteristics.

**CHRYSO® Optima 100** is a superplasticiser which is particularly adapted for use on construction sites and in the ready mix concrete industry.

## FIELDS OF APPLICATION

### Types of Application

- All types of cement
- Hot weather concreting
- Pumped concrete
- Extended workability retention
- Concrete for highly reinforced structures
- High performance concrete – very high performance concrete
- Prestressed concrete

## INDICATIVE INFORMATION

<b>Product Nature</b>	Liquid
<b>Color</b>	Cream
<b>Lifetime</b>	9 months
<b>Halogen Dry Extract</b>	30,00 % ± 1,50
<b>Cl<sup>-</sup> Ions content</b>	≤ 0,100 %
<b>Equivalent Content Na<sub>2</sub>O</b>	≤ 0,30 %
<b>Specific gravity</b>	1,060 ± 0,010
<b>pH</b>	3,20 ± 1,00
<b>Freezing Point</b>	-3 °C

## PACKAGING

- Container of 1000L
- Bulk delivery on request

## METHOD OF USE

### Dosage :

0.3 to 5.0 kg for 100 kg of cement.

- A 1.0% dosage of the product of the weight of cement is commonly used.
- This product is completely miscible in water.
- This product must be added to the mixer with the mixing water.
- The product can also be added later on site.
- The optimum dosage of this product can only be established after trial tests, taking into account the rheological characteristics and the required mechanical performances of the concrete.
- Dependant on application this product can be used in conjunction with some other CHRYSO® admixtures.

## PRECAUTIONS

- Protect from frost.
- Should the product freeze, it will recover its properties. After thawing, an efficient agitation is necessary until the product is entirely homogeneous again.
- Avoid prolonged exposure to high temperatures

## NORMATIVE AND REGULATORY INFORMATION

- This product conforms to UKCA and CE marking. The appropriate declaration can be found on our internet site

## SAFETY

CHRYSO® Optima 105 is a product classified as "harmless". It is recommended to wear normal protective equipment.

For further information, please refer to the safety data sheet on our internet site [www.uk.chryso.com](http://www.uk.chryso.com).
